- 3.1 Matches may be deferred only on the approval of the TYC. Deferrals will only be allowed if played within two weeks, either side of the scheduled game and not within one week of the end of a round or within one week of the commencement of the semi finals. The responsibility for all deferral arrangements shall lie with the team wishing the deferral including notifying the appointed umpires. The team being asked for the deferral should apply good sportsmanship and every effort should be made to accommodate the deferral. Teams shall have agreed an alternative venue and/or playing time to be approved by TYC, who shall be notified of the proposed deferral at least 14 days prior to the scheduled date of the match. Deferral proposals put to the TYC less than 7 days prior to the fixture date shall incur a fee.
- 3.2 Deferral proposals lodged less than 7 days prior to the fixture may result in the deferring team being charged with the turf fee for the deferred fixture. Advice Note: The number of teams in the competition puts significant stress on available turf time. Any deferrals may need to be played during school practice times. 3.3 Teams intending to default shall inform the TYC via the Operations Manager no less than 48 hours prior to the scheduled date and time of the fixture. Failure to do so will result in a fine no less than twice the relevant turf fee.

- 3.6 A default shall be treated as a 3-0 win in favour of the opposing team.

- 3.7 If at the commencement, or at any stage during a match, the number of players in a team is less than seven (7), then that team shall be considered to have lost the match by default. If the relevant team has not scored prior to the default being invoked, then the score shall be recorded as 3-0 to the opposing team. If the non defaulting team has scored more than three goals then the score recorded shall stand.
- 3.8 If a team is unable to provide a full team on the day as per the Rules of Hockey, then the default shall be deemed to take place 10 minutes after the normal commencement time of the match.

#### **5.0 FLOATING PLAYERS**

- 5.3 TYC shall approve all the floating players prior to the commencement of the playing season.
- 5.4 Floating players are allowed to move between any two teams from the same school. The floating players shall be deemed to be the two **lesser players** of the higher ranked team and not players who make a significant difference to the lesser team. I.e. not a senior player, not an age group representative player (under 16 development players excluded) and not a player that would make a significant difference to the team that they are floating to. The purpose of the floating player rule is simply to allow teams that are short of players to top up to prevent defaulting. Players can float from A team to a B team in the same grade, A grade to B grade (absolute lesser player in this case), cross grade B grade if more than one team in the B grade. The floating player rule has been implemented to allow some Flexibility with difficulties surrounding borders, travel arrangements, work commitments etc. It must not be abused. The rule will be monitored and strictly policed. Incorrect use of this rule will result in immediate point's loss and may be subject to a fine equivalent to the turf fees for the match. Schools may apply to have a specific player who does not meet this general criteria listed as a floating player, due to any extenuating circumstances that may apply to that player. The decision of the TYC will be final.
- 5.5 Where the floating player from the higher ranked team is a goalkeeper, the floating player may only play in the field and not in the goal.

- 5.6 Development players: (These players do not need to be nominated on the registration form). Players may play up a grade for up to two games for the purpose of development. - 9.2 The card system operates whether or not the umpire has a set of cards or not. Cards may be issued by presenting the appropriate card or verbally indicating the issue of the card.
- 9.3 Each card will carry the following penalty points:
  - Green Card: 1 point
  - Yellow Card: 3-6 points (at appointed umpire's discretion)
  - Red Card: 12 pointsWhere the game is controlled by player umpires yellow cards will automatically incur a 3 point penalty. Should any umpire fail to record the number of points on the match card, the points will be automatically allocated by the THF.
- 9.4 All players are required to identify themselves by name when requested by an umpire. Refusal to do so will result in the issue of a red card, unless the captain identifies the player by name. - 10.6 The THF will deal with complaints relating to the behaviour of whole teams, whether it is in respect of on or off the field incidents, or off field incidents involving individual participants or umpires.
- 10.7 The THF may at its discretion delegate the responsibility for hearing any matter relating to a whole team to the Judicial Committee, but only with the agreement of the Chairperson of the Judicial Committee.
- 10.8 These hearings will be conducted in a fair and just manner. Participants have the right to be represented and to respond to any evidence given. Hearings may be held without the participant being present if the participant chooses, by notice or their action, not to attend a meeting of the Judicial Committee. Failure to respond to a notice of a meeting of the Judicial Committee may be interpreted as the participant electing not to attend the meeting, when it is clear that the participant has received the notice and has had adequate time to respond.
- 10.9 Notice of Judicial Committee hearings will be given to the participant and contact person of the school to which the participant is affiliated, as soon as possible after the need for a hearing becomes known. Wherever possible, written notice will be followed by verbal advice.

- 10.18 Schools may appeal any decision of this Federation to the NZ Hockey Federation, but only in so far as it concerns any point of law.
- 10.19 The participants past actions are irrelevant to the determination of guilt. The extent of any injury suffered or inflicted is relevant. Matters to be considered when determining the penalty to be imposed include:
- Greater significance should be placed on the player's intention than on the actual outcome i.e. the fact that a player swings a stick at another player is more critical to determining the extent of the penalty than whether or not it actually connects or causes significant injury. The consequences of any action may, however, influence the penalty to the extent that the Judicial Committee believes it is equitable.
  - The penalty should reflect the intentions of the player and the potential danger associated with that action.
  - The past history of the participant should also be considered. Repeat offenders can expect more severe penalties.
- 10.20 In any case in which it is claimed a participant was guilty of an offence by reason of provocative conduct on the part of another participant or person, such provocative conduct shall be no defence to any incident but may be taken into account in determining the penalty/suspension.
- 10.21 The fact that a participant acted in retaliation shall be no defence but may be taken into account in determining the penalty/suspension.
- 10.22 Schedule 1 contains penalty guidelines for various offences. The guidelines are not prescriptive but are designed to enhance consistency in the determinations made by the Judiciary. A suspended sentence provision is a tool, which the Judiciary may use when considered necessary. In addition, the Judiciary may find extenuating circumstances, which may necessitate the reduction of the sentences, lower than those suggested in Schedule 1.
